SHADES • CANOPIES

An innovation in shade performance and privacy

Horizontal shades from Betterliving!

When you need sun protection, privacy or a wind barrier on your deck, patio, porch, balcony or terrace - the Betterliving horizontal shade is the perfect solution. Our stylish retractable fabric panels can be used when and where you need it.

The retractable fabric panel slides easily on a bottom caster, hooks into the post and is equipped with a secure-lock braking system for safe and convenient operation.

Added beneath a retractable patio awning, our horizontal shades create a comfortable retreat for added outdoor living. The shades are available in heights from 46 inches to 96 inches and can project up to 13 feet.
